

O7-111Anti-Vibration Glove

Previously known as: VibraGuard®07-111

Vibratio

Heavy Duty

Heavy-duty nitrile safety gloves, minimizing the risks and effects of harsh vibrations

- Improved tactility: ActivArmr® 07-111 work gloves'
 half-finger design ensures precision handling,
 enabling wearers to use power tools with ease and
 deftly handle screws, nails and small parts
- Elevated comfort: These abrasion-resistant gloves' breathable cotton back provides comfort in warm work environments
- Increased protection: Gel foam padding in the thumb, index finger and palm area reduces vibration, protecting hands against shock impacts and potential instances of hand-arm vibration syndrome (HAVS)
- Optimized durability: Owing to their nitrile coating, ActivArmr[®] 07-111 protective gloves offer greater levels of snag and abrasion resistance
- Genuine convenience: These launderable nitrile
 work gloves are silicone-free, making them suitable
 for various manufacturing applications and
 preventing contaminant transfer to metal before
 painting

Industries

- Automotive
- Metal fabrication
- Agriculture
- Automotive Aftermarket
- Oil and gas

Applications

- Handling metal sheets & panels
- Metalworking & assembly operations
- Handling rough machined metal parts
- Handling materials with sharp or rough edges

07-111 **Anti-Vibration Glove**

Previously known as: VibraGuard®07-111

Key Features

- Half-finger design: For safety gloves that ensure precision handling
- Breathable cotton back: Greater comfort in warm work environments
- Vibration gel foam padding: Shock and vibration absorption

Performance Standards & Regulatory Compliance

3221B
