

Safety overboots offering superior breathable microporous laminate technology.

- **Improved defenses:** AlphaTec® 2000 STANDARD Overboots Bound - Model 406 grants a proven protective barrier to low-concentration liquid chemicals, liquid and particulate biological hazards
- **Augmented protection:** Comfortable to wear, these protective overshoes are composed of moisture vapor permeable fabric, which reduces the risk of heat stress
- **Enhanced ergonomics:** Beyond providing chemical resistance, these overboots afford an optimized fit, which guarantees comfort and safety
- **Reduced contamination risks:** In addition, these low-linting overboots are ideal for controlled environments as they reduce contamination risks

Industries

- Life Sciences
- Metal fabrication
- Food Processing

Applications

- Clean room cleaning and preparing
- Production line support & maintenance
- Maintenance of plant and machines
- Veterinary Services
- Body painting including surface inspection
- Cleaning of plant and machines

KEY FEATURES & BENEFITS

- **Protective barrier:** Reliable personal protection from chemicals
- **Moisture vapor permeable fabric:** Reduced heat stress risk
- **Optimized fit:** For form-fitting footwear combining comfort and safety

Product Information

Product Information	
Available Sizes	One Size
Color	White
Country Of Origin	Sri Lanka
Packaging Overview	50 pairs every compressed bag
Product Material	Microporous polyethylene Laminate non-woven
Product Reference	AlphaTec 2000 STANDARD Overboots Bound Models 406
Standards Overview	CE CATEGORY III (Type PB (6)-B, EN 14126)
Seam Type	Bound
Shelf Life	5 years
Style Number	W20B406

Suit components & accessories

Suit Components and Accessories	
Design Features	Tie fastening, elastic to top of boot & bound seams
