

48-129

Economical solution for light applications

# Abrasion and tear-resistant gloves, offering good grip performance and high tactility

- Enhanced durability: Strengthened by PU coating, EDGE® 48-129 safety gloves offer EN level 4 abrasion resistance, good grip, and high tactility in dry to slightly oily environments
- Augmented dexterity: EDGE® 48-129 industrial gloves are composed of a seamless knitted liner and an elasticized knitwrist dipped into grey PU coating, which afford better flexibility and dexterity than cotton canvas and thick cotton gloves
- Improved practicality: Made of a grey 15-gauge polyester liner, these tear-resistant work gloves offer an efficient and economical light-duty glove solution

## **Industries**

- Automotive
- Electronics
- Energy
- Machinery and Equipment
- Recycling and Waste Disposal
- Transportation

## **Applications**

- Assembly of small pieces
- General handling
- Packaging
- Quality inspection

## 48-129

## **Economical solution for light** applications

## **Key Features**

- Polyurethane coating: Assured mechanical performance and protection
- Seamless design: Form-fitting flexibility, enhanced precision handling
- 15-gauge polyester liner: For robust yet lightweight protective gloves

## **Performance Standards & Regulatory Compliance**

ANSI/ISEA 105-2024

4121A

#### **Specifications**
