

Previously known as: MICROGARD® 2000 Lab Coat - Model 209

Comfortable safety lab coat, featuring superior breathable microporous laminate technology.

- **Advanced protection:** AlphaTec™ 2000 STANDARD Lab Coat Bound - Model 209 offers chemical resistance and grants proven protective barrier to low-concentration liquid chemical as well as liquid and particulate biological hazards
- **Increased comfort:** Owing to its moisture vapor permeable fabric, these chemical protective garments ensure breathability, protecting workers from heat stress
- **Improved ergonomics:** As it boasts an optimized fit, this protective outer garment delivers better comfort and personal protection
- **Reduced contamination risks:** These advanced chemical protective garments are made of low-linting materials, which reduce the risk of contamination

Industries

- Life Sciences
- Automotive
- Food Processing

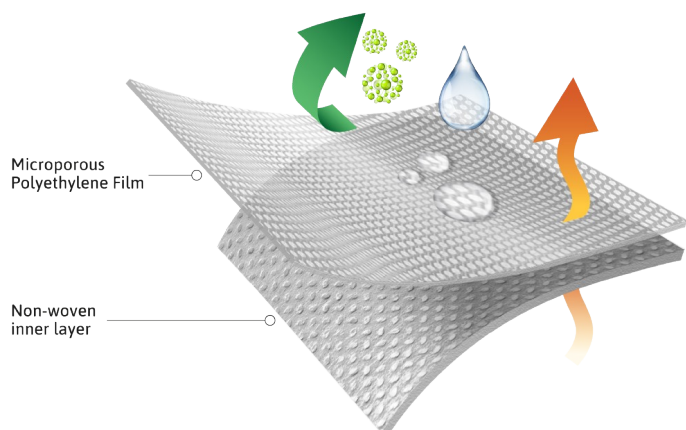

Applications

- Veterinary Services
- Production line support & maintenance
- Maintenance of plant and machines
- Clean room cleaning and preparing
- Body painting including surface inspection
- Cleaning of plant and machines

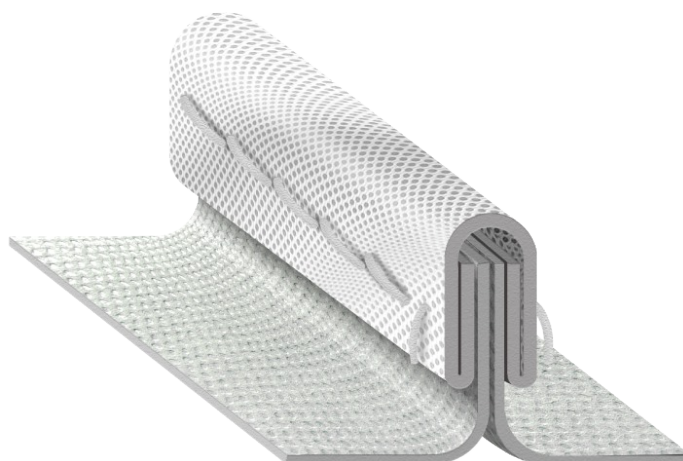

KEY FEATURES & BENEFITS

- ◊ **Proven protective barrier:** Reliable chemical protective garments
- ◊ **Breathable barrier lab coat:** Optimal heat stress protection
- ◊ **Optimized fit:** For increased wearer comfort

Performance Standards

ASTM F1671 EN ISO 13688:2013

Product Information

Product Information	
Available Sizes	S, M, L, XL, 2XL, 3XL
Color	White
Packaging Overview	Individually Packed
Product Material	Microporous polyethylene Laminate non-woven
Product Reference	2000 Lab Coat - Model 209
Standards Overview	CE CATEGORY III (Type PB (6)-B, EN 14126)
Seam Type	Bound
Shelf Life	5 years
Style Number	W20B209

Suit components & accessories

Suit Components and Accessories	
Design Features	Labcoat, front zip fastening, left breast pocket, lower right pocket and bound seams.
