

EVO Type T

Unique, multi-layer, flame retardant, re-usable chemical barrier technology, Type 1 / Level B protection

Previously known as: TRELLCHEM® EVO Type T

Multi-layer flame retardant protective suit, delivering superb chemical resistance.

- **Advanced protection:** The AlphaTec® EVO Type T flame-retardant chemical suit features a patented blend of butyl rubber, Viton™ and aramid, for outstanding chemical resistance and permeation times*
 - **Optimized durability:** Its Viton™ layer is both degradation- and chemical-resistant, making for a supremely robust and durable chemical protection suit
 - **Specialized defenses:** In addition, this protective suit boasts ATEX approval for use in explosive atmospheres
 - **Genuine versatility:** Thanks to its non-encapsulating design, it is also suitable for use in confined spaces
- *EN Type 1/EPA Level B protection*

Industries

- Food Processing
- Life Sciences
- Chemical
- Industrial
- Law Enforcement
- Fire and Rescue
- Defense
- Military
- Shipping
- Oil and gas

Applications

- Maintenance of plant and machines
- Plant Emergencies
- Accidental release of toxic gases
- Biohazard response
- Unexpected leakages spills or other releases
- Tank Cleaning
- CBRN Emergencies
- Chemical leaks
- Emergency Response
- Hazmat response
- Shipping

KEY FEATURES & BENEFITS

- **Butyl rubber, Viton™ and aramid blend:** Advanced chemical resistance*
- **Durable patented multi-layer fabric:** Excellent abrasion resistance
- **ATEX zone approval:** Suitable for use in explosive atmospheres

**permeation tested for 24 hours*

Performance Standards

Product Information

Product Information	
Available Sizes	2XS, XS, S, M, L, XL, 2XL, 3XL
Color	Red, Olive Green
Country Of Origin	Lithuania
Packaging Overview	Individually packaged
Product Material	Outer aramid fabric with Viton [®] /butyl rubber. Inner chloroprene rubber and a multilayer barrier laminate
Product Reference	EVO Type T
Standards Overview	<ul style="list-style-type: none"> • EN 943-1:2015 + A1:2019 • EN 943-2:2019 • EN 1073-2:2002 (radioactive particle protection) • EN 14126:2003 (infective agent protection) • EN 1149-5:2008 (antistatic suit material) • Approved for use in ATEX zones 0, 1, 2/20, 21, 22 and chemical group IIA, IIB, IIC • SOLAS
Seam Type	Stitched and covered with Viton [®] rubber tape on the outside and a barrier laminate tape on the inside
Shelf Life	10 years

Suit components & accessories

Suit Components and Accessories	
Design Features	Non-encapsulating design with face seal and without hump (type T), breathing apparatus worn outside the suit.
Visor And Face Seal	Anatomically designed rubber face seal
Gloves And Attachments	2-part system with AlphaTec® 02-100 barrier inner glove and AlphaTec® 38-628 Viton®/Butyl rubber glove. The gloves are attached with the AlphaTec® Bayonet glove ring system, which offers quick and simple glove exchange.
Footwear And Attachments	Sewn-in socks/booties made of the suit material. Alternatively attached black nitrile rubber safety boots with European approval as Firemen's boots. The boots are fixed with an ergonomically designed ring attachment, for simplified boot exchange.
Zipper	AlphaTec® HCR zipper, which includes a barrier film for increased chemical resistance. The zipper is closing downwards, for added safety, and is protected by a flap/splash guard.
Ventilation	A ventilation system is included as standard. For the safety of the wearer, it provides a constant level of overpressure inside the suit. The AlphaTec® Regulating valve has 3 ventilation rates (2, 30 and 100 l/min) plus zero/off position. CEJN 221 male coupling for connection to the SCBA (requires separate connection hose). One AlphaTec® Exhaust valve on the chest.
Optional Features And Accessories	• Waist belt, internal, • D-ring for holding small measuring instruments & tools, • Customized marking, e.g. digits, letters, logos, • AlphaTec® #58-800 Overglove for improved cut & puncture resistance, • AlphaTec® SCBA Cover, • Other accessories are available upon request
Included With Each Delivery	• 1 pce AlphaTec® Mini Hood for protection against inward leakage between mask and face seal, in case of jet spray from behind • 1 pair of comfort inner gloves • 2 pcs extra locking pins for the Bayonet glove ring system • 1 pce Molycote lubrication for the O-rings in the Bayonet glove ring system • 1 pce grease stick for lubrication of the zipper • 1 pair of comfort silicone oversocks (only for suits with sewn-in socks) • 1 pce coat hanger • 1 pce AlphaTec® Storage bag
