

# EDGE™

## 48-216

Cost-efficient solution for demanding welding application

Welding

Heat

Heavy Duty

## Robust and dexterous thermal work gloves with heat, flame, sparks and puncture protection

- **Heightened defenses:** REACH compliant and CE-certified, EDGE™ 48-216 protective gloves offer EN 12477 Type A protection for demanding welding and thermal job tasks, ranging from stick and MIG welding to torch cutting and grinding
- **Enhanced features:** Featuring an improved three-dimensional thumb design, these high-dexterity gloves offer tactile sensitivity for precise welding control
- **Increased protection and durability:** Apart from providing forearm protection, EDGE™ 48-216 heat-resistant gloves also boast higher durability, as they are made of premium split cowhide leather and have welted seams sewn with aramid
- **Added comfort:** These breathable work gloves possess a cotton lining that grants thermal insulation and extended comfort

### Industries

- Automotive
- Construction
- Energy

### Applications

- Welding
- Handling hot metal castings
- Grinding
- Handling of metal sheets, cutting of dry, painted or galvanised pieces
- Brazing

# EDGE™

## 48-216

Cost-efficient solution for demanding welding application

### Key Features

- ♦ **Heat-resistant design:** REACH compliant and CE-certified gloves
- ♦ **Three-dimensional thumb design:** Added dexterity for optimal precision
- ♦ **Long cuff:** For safety work gloves affording full forearm protection

### Performance Standards & Regulatory Compliance
