

11528

Skin friendly cut protection with INTERCEPT technology®

Highly durable light-duty work gloves, ensuring comfort, flexibility and grip

- Improved durability: HyFlex® 11-528 light-duty industrial gloves' NBR foam coating ensures heightened durability and meets EN ABRASION LEVEL 3
- Enhanced grip: Their NBR foam coating also enhances these safety gloves' grip performance for dry to moderately oily applications
- Assured protection: Featuring glass-free INTERCEPT™ Cut Resistance Technology, that ensures EN ISO B level cut resistance
- Heightened tactility: These HyFlex® gloves are also highly flexible, providing the ideal range of motion and tactility needed for handling small parts
- Minimized health risks: DMF-free by design, they avoid all related health risks

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication
- Mining
- Energy
- Transportation

Applications

- Handling metal sheets & panels
- Handling parts with sharp, rough edges
- Final assembly
- Assembly & inspection of components
- Applying finish to materials, products

11528

Skin friendly cut protection with **INTERCEPT technology®**

Key Features

- Glass-free INTERCEPT™ liner: Enhanced cut protection
- NBR foam coating: Strong grip and advanced abrasion resistance
- Flexible design: Ample range of motion and tactility
