

11-948

Medium duty cut and abrasion resistant gloves

Previously known as: Nitrotough™N3500SC

Oil

Cut

Highly durable industrial gloves, for precise handling requiring oil and cut resistance

- Specialized protection: HyFlex® 11-948 mediumduty industrial gloves feature polyurethane (PU) and nitrile coating in various dip geometries, protecting wearers against oil and grease
- Heightened durability: Developed with FORTIX™
 Abrasion Resistance Technology, their PU and nitrile coating results in excellent, ANSI and EN level 4 abrasion resistance levels
- Enhanced features: A flared safety cuff further enhances wrist protection
- Added defenses: Their fiber glass, polyamide and polyester liner is infused with INTERCEPT™ Cut Resistance Technology, for ANSI A2/EN ISO B-level protection against cuts and lacerations
- Strengthened grip: These safety gloves' coating is also microfinished, granting wearers exceptional grip, especially in oily conditions

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Press injection molding
- Production line support & maintenance
- Inspection (picking, checking and marking)
- Changing tools and dies

11-948

Medium duty cut and abrasion resistant gloves

Previously known as: Nitrotough™N3500SC

Key Features

- Microfinished nitrile coating: Oil repellence and enhanced grip
- FORTIX™ Abrasion Resistance Technology: Heightened durability
- Flared safety cuff: Enhanced forearm and wrist protection

Technologies

Performance Standards & Regulatory Compliance
