

## Durable, reinforced nitrile gloves, offering chemical protection with advanced comfort

- **Improved durability:** AlphaTec® 39-122 industrial gloves' reinforced nitrile composition enhances durability, achieving ANSI level 4 abrasion resistance
- **Specialized protection:** The same reinforced nitrile make-up ensures light chemical defenses, with EN 374 Type B chemical resistance
- **Elevated comfort:** These AlphaTec® gloves' natural shape and interlock cotton liner ensure advanced user comfort, with reduced perspiration
- **Reduced strain:** AlphaTec® 39-122 safety gloves' curved, pre-flexed fingers and wing thumbs lead to lesser strain and hand fatigue
- **Food handling compliance:** They also comply with EU and FDA food handling regulations
- **Genuine versatility:** Their dexterity and high levels of wet and dry grip ensure safe handling for varied applications

### Industries

- Automotive Aftermarket
- Metal fabrication

### Applications

- Oil, fluids and filter change
- Handling materials with sharp or rough edges
- Applying finish to materials, products
- Adjusting panels parts components
- Production line support & maintenance
- Equipment repair & maintenance
- Assembly and disassembly of equipment

Previously known as: Sol-Knit™ 39-122

### Key Features

- **Reinforced nitrile composition:** Durability and chemical protection
- **Interlock cotton liner:** For PPE gloves offering advanced comfort
- **Pre-flexed fingers and wing thumbs:** Reduced hand fatigue and strain

### Vulcanization Chemical Accelerators

- Zinc 2-mercaptobenzothiazole

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards

### Specifications
