

11-423

Designed to make the selection of hand protection easy

Previously known as: Puretough™P3000

Cut

ıt Hea

Medium Duty

Heat-resistant industrial gloves, with color coding to ensure appropriate application.

- Indicated protection levels: HyFlex[®] 11-423 industrial gloves follow a color-coded indicator system, helping workers identify when to use them safely
- Advanced defenses: HyFlex[®] 11-423 safety gloves are composed of high-performance fibers, enabling them to resist heat of up to 100°C/212°F
- Improved durability: HyFlex[®] 11-423 PPE gloves are hard-wearing, with EN and ANSI level 4 abrasion resistance
- Enhanced grip and eco-friendliness: Water-based polyurethane coating ensures breathable comfort and better grip, while manufacturing is more ecofriendly
- Increased convenience: They are available in vend pack form, for easy access and re-application
- Contaminant-free: They are also silicone-free, preventing contaminant transfer to metal before painting

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication
- Food Processing

Applications

- Handling parts with sharp, rough edges
- Metalworking & assembly operations
- Adjusting parts, systems
- Adjusting systems and screwing
- Applying finish to materials, products

INTERCEPT

Cut Resistance Technology

Key Features

- HyFlex® indicator system: Workers can ensure adequate protection
- Visible high-performance fibers: Resist heat up to 100°C (212°F)
- EN and ANSI abrasion resistance certification: Excellent durability

Vulcanization Chemical Accelerators

- Natural rubber proteins (in knitwrist elastic)
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

Performance Standards & Regulatory Compliance

4X32B
