

# 27-810

Nitrile dipped coating on a jersey liner

Oi

Oil-repellent nitrile-coated work gloves, for tasks requiring durability and resistance to sharp materials

- Enhanced flexibility and durability: ActivArmr®
   Hycron® 27-810 nitrile-coated gloves offer greater flexibility than PVC-coated gloves, as well as three times more durability than heavy-duty leather alternatives
- Specialized protection: Their unique nitrile formulation also ensures robust hand protection against sharp and abrasive materials, as well as oil and grease
- Enhanced features: ActivArmr® Hycron® 27-810 work gloves feature a long safety cuff, further boosting hand and wrist protection
- Reduced surface defect risks: Silicone-free by design, they are ideal for metalworking and motor manufacture, averting any contaminant transfer to paint before painting
- Elevated comfort: These ActivArmr® gloves' cotton jersey fabric also grants wearers optimal comfort, for less strenuous everyday hand protection

# **Industries**

- Automotive
- Machinery and Equipment
- Metal fabrication
- Chemical

# **Applications**

- Handling metal sheets & panels
- Metalworking & assembly operations
- Press injection molding
- Seizing and finishing structural parts
- Fixing, clipping parts and wire harnesses; connecting devices
- Assembly & inspection of components
- Opening furnaces draining pumps valves or lines and crackers BTX process

# 27-810

# Nitrile dipped coating on a jersey liner

# **Key Features**

- Nitrile formulation: Flexibility, durability, abrasion resistance\*
- Long safety cuff: Enhanced hand and wrist protection
- Silicone-free design: Assured cleanliness for metal and motor manufacture
  - \*3x more durability than heavy-duty leather alternatives

# **Performance Standards & Regulatory Compliance**

4121B

# **Specifications**
