

Electrical Insulating Gloves Class 00 -RIG0011B

Ergonomically designed natural rubber insulating gloves for all-day safety and comfort

Previously known as: E013B

Electrical

Form-fitting electrical safety gloves, offering versatile protection* and durable comfort

- Heightened durability and flexibility: ActivArmr[®] Electrical Insulating Gloves Class 00 - RIG0011B are made with natural rubber latex, making them both durable and flexible
- Advanced ergonomics: These electrical insulated gloves' hand-at-rest shape and non-splayed fingers limit hand fatigue when used continuously
- Elevated comfort: A spacious flared cuff means these low-voltage* electrical gloves grant wearers breathable comfort
- **Specialized defenses:** They are arc flash certified (APC 1 in combination with 96-002 leather protectors) and resistant to acid, ozone and very low temperatures**
- Increased practicality: Donning and doffing are simplified by their smooth finish
- Certified protection: These insulated gloves also satisfy applicable CSA, NFPA and OSHA standards *Voltage AC maximum 500 V (DC maximum 750) **Category A, Z and C respectively

Industries

- Automotive
- Electrical
- Construction
- Mining
- Machinery and Equipment
- Automotive Aftermarket
- Metal fabrication
- Oil and gas
- Utilities

Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires
