

Electrical Protection Class 4 - RIG418B

Ergonomically designed natural rubber insulating gloves for all-day safety and comfort

Previously known as: E024B

Electrica

Heavy Duty

Durable, high-voltage electrical protection gloves*, for optimal safety and comfort

- Heightened durability and flexibility: Made from natural rubber latex, using an eco-conscious dipping process, ActivArmr® Electrical Protection Class 4 - RIG418B gloves make for flexible, durable electrical PPE
- Advanced ergonomics: These insulated gloves' non-splayed fingers and hand-at-rest shape limit hand fatigue
- Elevated comfort: A flared cuff ensures ventilation and plentiful room for clothing
- Increased practicality: These electrical protection gloves' smooth finish also facilitates donning and doffing
- Certified protection: They are arc flash certified (APC 2 in combination with 96-003 leather gloves)*, boast EN Category R certification for passing A+Z+H properties** and meet relevant CSA, NFPA and OSHA standards
- Specialized defenses: These electrical safety gloves tolerate a touch voltage AC maximum of 36000 V (DC maximum 54000)

*EBT : 88 cal/cm², EBT : 29 cal/cm² with 96-003

leather protectors

**As required by EN60903

Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires
