

Electrical

Light Duty

## 30% thinner design\* offers game-changing electrical protection

- **Enhanced comfort:** 30% thinner design\* delivers a second skin like fit and feel
- **Improved dexterity:** Featuring new form fitting, these ultra-thin Electrical Rubber Insulated gloves help reduce fatigue for enhanced productivity while offering high dexterity and advanced tactile sensitivity for handling small parts
- **Assured protection:** Meet requirements for Class 00 (500V AC/750V DC) protection, certified for resistance to acid (Category A), Ozone (Category Z) and very low temperatures (Category C)
- **Silicone free:** prevent contaminant transfer to final product

\* compared to standard Class 00 rubber insulated glove, providing the same level of protection

### Industries
