

Previously known as: AlphaTec® 1500 - Model 138

Particle-filtering SMS protective body suit, for light chemical protection with breathable comfort.

- **Specialized protection:** The AlphaTec™ 1500 Stitched & Taped - Model 138 ensures light chemical resistance* and is proven to filter 100% of particles over 3 microns in size, including asbestos fibers, like chrysotile
- **Heightened breathability:** Thanks to the air and water vapor permeability of its SMS fabric, this protective suit also offers users heat stress protection
- **Reduced surface defect risks:** Being silicone-free, the risk of contaminant transfer to metal prior to painting is greatly diminished
- **Enhanced fit and features:** This protective outer garment's optimized fit further enhances comfort and it features a three-piece hood for added protective coverage
- **Improved durability:** The AlphaTec™ 1500 Stitched & Taped - Model 138's stitched seams make for sturdier protection

**this protective suit offers CE Category III Type 5/6 protection*

Industries

- Automotive
- Construction

Applications

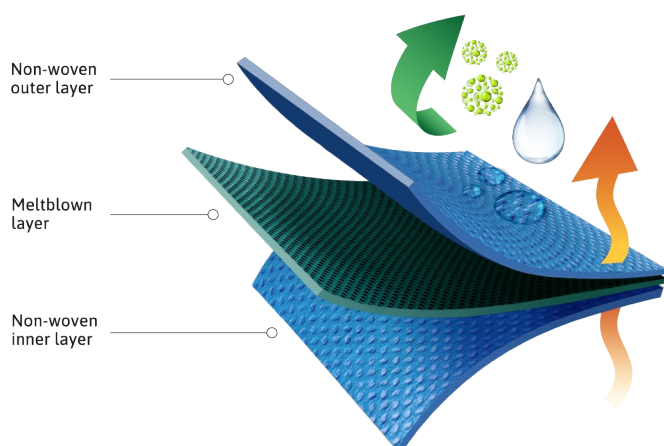

- Inspection (picking, checking and marking)
- Handling of powders
- General maintenance
- Asbestos Related Work

KEY FEATURES & BENEFITS

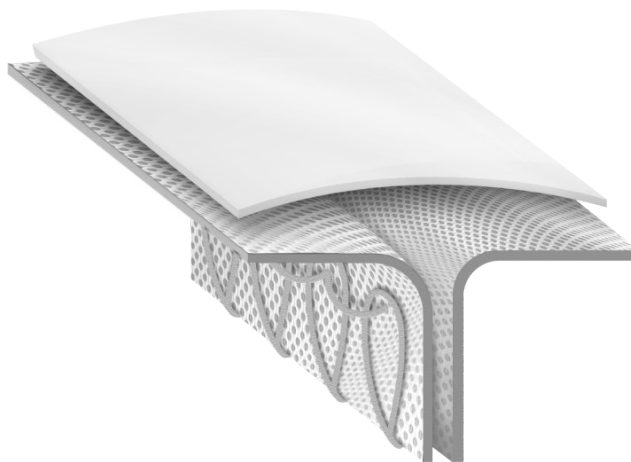

- ◊ **Particle-filtering SMS fabric:** Filters 100% of particles over 3 microns*
- ◊ **Air and water vapor-permeable design:** Lesser risk of heat stress
- ◊ **Silicone-free composition:** Suitable for spray-painting applications

**According to the KAKEN particle penetration test*
