

## Individually tested premium nitrile gloves, for advanced, high-risk chemical protection

- **Assured quality:** Produced in an ISO 9001-certified facility, AlphaTec® 37-900 nitrile-coated gloves are subject to 100% sampling inspections before dispatch, including leak-proof air pressure tests and defect checks
- **Advanced protection:** Made with an advanced nitrile formulation, these reusable industrial gloves provide superb chemical protection and exceptional permeation and abrasion resistance
- **Enhanced grip:** Both robust and comfortable, these chemical-resistant gloves also feature a reverse lozenge finish, for excellent grip performance in both wet and dry work environments

### Industries

- Automotive
- Machinery and Equipment

### Applications

- Delivery of parts to production line
- Painting or cleaning tools or robots
- Changing tools and dies

Previously known as: Solvex® 37-900

### Key Features

- **100% sampling inspection\*:** For assured handling of hazardous chemicals
- **Highly advanced nitrile film:** Truly superior abrasion resistance
- **Reverse lozenge finish:** Excellent grip performance

\*including a leak-proof air pressure test and defect checks

### Vulcanization Chemical Accelerators

- Mercaptobenzothiazole
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### Performance Standards
