

GAMMEX™ Latex Glove-in-Glove™ System

S U R G I C A L G L O V E S

Inner and outer latex surgical gloves pre-donned and ready for double gloving in one, easy step

- **Unprecedented double gloving convenience:** This system saves half the donning time and removes the frustration of donning two gloves separately as both the inner and outer gloves are pre-donned and aligned at the fingertips to allow for double gloving in one easy step with minimal adjustments
- **Eco-friendly:** Ansell's proprietary process of pre-donning enables these surgical gloves to be packed in one inner wrap resulting in 50% reduction of paper used
- **Added grip:** The palm and fingers of the outer glove is textured to offer exceptional grip performance especially under wet conditions
- **Advanced hydration:** Ansell's skin moisturizing technology is applied to the inside of the under glove for hands to stay soft and hydrated
- **Donning aid:** A unique donning aid technology enables easy doffing and donning of the inner and/or outer glove

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- All surgeries, especially high risk procedures in orthopaedics, trauma, and cardiac
- Easy identification of a glove breach

FEATURED TECHNOLOGIES

GAMMEX® Innovation that Protects

Driven by innovation, GAMMEX® surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.

GAMMEX™ Latex Glove-in-Glove™ System

SURGICAL GLOVES

PRODUCT INFORMATION

Material	Natural Rubber Latex
Powder Content	Powder-Free
Color	Natural, Green
Thickness	Standard
Cuff Style	Beaded with SUREFIT™ Technology
External Glove Surface	Textured Fingers and Palm
Internal Glove Surface	Coated with HYDRASOFT™ Technology
Allergy Prevention	None
Grip Level	High
Tested For Use With Chemotherapy Drugs	Yes, in accordance with ASTM D6978 (Not listed in the US FDA 510k)
Freedom from Holes (Inspection level I)	0.65 AQL
Sterile	Yes
Product Standards	AS/NZS 4179, ASTM D3577, ASTM D7160, CE 0493 (PPE) + CE 2797 (MD) , EN 16523-1, EN 455 1-4, EN ISO 21420:2020, EN ISO 374-1:2016, EN ISO 374-5:2016, ISO 10282
Quality / Environmental Standards	EN 556, ISO 11137-Part 1, ISO 13485, ISO 14001, ISO 9001
Packaging	2 pairs per pouch; 50 pairs per box (25 pouches); 4 boxes per carton/case; 200 pairs per carton/case (100 pouches)
Shelf Life	3 years
Storage Instructions	Keep out of direct sunlight; store in a cool and dry place. Keep away from sources of ozone or ignition.
Vulcanization Chemical Accelerators	Zinc Diethyldithiocarbamate (ZDEC), Zinc Dibutyldithiocarbamate (ZDBC)
