

Neoprene gloves, ensuring comprehensive mechanical and chemical resistance

- **Increased flexibility:** Made for heavyweight applications, AlphaTec™ 09-924 black hand protection gloves possess a cotton jersey liner and an anatomical shape, which follows the contours of the hand, ensuring comfort and dexterity
- **Improved protection:** These safety gloves offer high-quality neoprene coating with an AQL of 1.5, guarding from a broad range of chemicals, including oils, acids, caustics, alcohols as well as solvents, and mechanical hazards
- **Added features:** Owing to their special Hi-Lo insulated gauntlet option with quilted cotton liner, AlphaTec™ 09-924 heat and cold-resistant gloves are suitable for hot and cold conditions, as it allows intermittent handling in hot liquids up to 180°C and in cold temperatures down to -25°C

Industries

- Metal fabrication
- Machinery and Equipment
- Automotive

Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

AlphaTec™

09-924

Resists a wide range of oils, acids, caustics and solvents

Previously known as: Scorpio™ 09-924

Key Features

- ◊ **Cotton jersey liner:** For comfortable and flexible work gloves
- ◊ **High-quality neoprene coating:** Broad-spectrum chemical protection
- ◊ **Hi-Lo insulated gauntlet option:** Ideal for hot and cold temperatures
