AlphaTec™

09-928

Resists a broad range of oils, acids, caustics and solvents incorporating protection up to the elbow

Previously known as: ScorpioTM 09-928

Heavy-duty neoprene gloves, delivering all-round mechanical and chemical resistance (Length: 450mm/17.7”)

- **Advanced defenses:** AlphaTec™ 09-928 heavy-duty chemical gloves offer optimal defense against chemical hazards, such as oils, acids, caustics, alcohols and solvents
- **Reinforced protection:** These 450mm-long black hand protection gloves also feature increased puncture and snag resistance, protecting hands and elbows from mechanical hazards
- **Improved ergonomics:** In addition, AlphaTec™ 09-928 neoprene work gloves’ anatomical design reduces exertion and hand fatigue, resulting in improved comfort, safety and dexterity

Industries

- Metal fabrication
- Machinery and Equipment
- Automotive

Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

AlphaTec™

09-928

Resists a broad range of oils, acids, caustics and solvents incorporating protection up to the elbow

Previously known as: ScorpioTM 09-928

Key Features

- **Smooth finish neoprene coating:** Broad-spectrum chemical protection
- **Cotton jersey liner:** Increased puncture and snag resistance
- **Anatomical shape:** Improved comfort and reduced hand fatigue assured
