

Delivering high level of comfort and chemical protection

Advanced defenses: AlphaTec™38-001's new water based butyl formulation offers superior protection against highly aggressive chemicals, including aldehydes, ketones, solvent esters and concentrated mineral acids

Improved ergonomics: Designed for comfort, AlphaTec™38-001 industrial gloves feature a unique butyl formulation to facilitate a soft feel, protecting hands while facilitating donning and doffing

Enhanced flexibility: Ultra soft water based butyl formulation maximizes flexibility and dexterity

Strengthened grip: Features a raised diamond pattern, enhancing grip and ensuring safer handling

Industries

- Automotive
- Life Sciences

Applications

- Transferring liquids and solids
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Unexpected leakages spills or other releases
- Opening and draining pumps valves or lines
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Handling incoming goods
- Equipment repair & maintenance
- Charging and blending raw materials

Key Features

Delivers high levels of protection against Ketones and Solvents with unparalleled levels of comfort and flexibility

- ◊ Improved water based butyl delivering a high level of chemical protection
- ◊ Raised diamond grip pattern for enhanced grip in wet and dry
- ◊ Unprecedented levels of dexterity and tactility in a butyl glove
- ◊ Extended length for forearm protection
