

Previously known as: TRELLECHEM® Treltrain

### Non-certified PVC training suit combining strength, durability and flexibility.

- **Improved practicality:** Designed to replicate the fit and feel of frontline gas-tight chemical protective suits, AlphaTec® TRAINER chemical protective garments are non-certified products designed for realistic training, which save the operational suits until they are really needed
- **Strengthened defenses:** Featuring the same design as the operational AlphaTec® gas-tight suits, AlphaTec® TRAINER is composed of strong and durable yet soft fabric and coated with PVC on both sides
- **Enhanced protection:** In addition, this protective body suit is reinforced with welded seams as well as durable, watertight and PVC-coated zipper
