

## Chemical gloves ideal for a wide range of applications, with a great fit for Asian hands

- **Increased defenses:** The AlphaTec® Solvex® 37-873 is made from high-performance nitrile compound, enabling it to offer chemical, snag, puncture, and abrasion resistance as well as deliver optimal results in wet or dry work environments
- **Advanced ergonomics:** Comfortable and flexible, these safety gloves feature a curved finger design that fits naturally to reduce hand fatigue
- **Enhanced features:** These hand protection gloves ensure a special hand fit for Asians, due to the shape of the former, and are flock-lined for better sweat absorption
- **Reduced risks:** As these nitrile gloves do not contain natural rubber latex, they protect wearers from Type 1 allergies
- **Food handling compliance:** These protective gloves also comply with FDA food handling requirements

### Industries

- Agriculture
- Automotive
- Construction
- Chemical
- Energy
- Metal fabrication
- Food Processing
- Life Sciences
- Machinery and Equipment
- Janitorial / Sanitation

### Applications

- Chemical processing and preparation
- Chemical Handling
- Cleaning
- Plant disinfection and sanitization
- Food processing and meat packing applications
- Loading raw material
- Janitorial use
- Testing

### Key Features

- **High-performance nitrile compound:** Durability and chemical resistance
- **Curved finger design:** Protecting hands from fatigue
- **Special hand fit for Asian customers:** Increased safety and efficiency

### Performance Standards

EN388: 2016

3001X

EN ISO 374-1:2016

Type B

JKL

EN ISO 374-5:2016
