

Oil

Heavy Duty

## Heavy-duty work gloves, designed for the safe handling of rough and abrasive materials

- **Enhanced durability:** Thanks to their unique Ansell nitrile formulation, ActivArm® 27-602 industrial gloves offer greater strength and flexibility than PVC-coated gloves, resulting in superior resistance to sharp and abrasive materials and an excellent barrier to oil and grease
- **Increased comfort:** These hard-wearing nitrile-coated gloves include cotton and jersey fabric, which cushions the hand, absorbs perspiration and does not degrade as easily as leather alternatives\*
- **Reduced surface defects risks:** ActivArm® 27-602 safety gloves are made without silicone, preventing contaminant transfer to metal prior to painting

*\*These abrasion-resistant gloves are three times more durable than standard heavy-duty leather alternatives*

### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

### Applications

- Handling metal sheets & panels
- Metalworking & assembly operations
- Press injection molding
- Seizing and finishing structural parts
- Fixing, clipping parts and wire harnesses; connecting devices
- Assembly & inspection of components

### Key Features

- **Unique nitrile formulation:** Enhanced abrasion resistance
- **Cotton jersey liner:** For comfortable, breathable protective gloves
- **Silicone-free design:** Suitable for spray-painting applications

*\*3x more durability than heavy-duty leather alternatives*

### Performance Standards & Regulatory Compliance

ANSI/ISEA 105-2024

EN388: 2016

4121B
