

43-113

Heat and Flame Resistant Glove

Previously known as: MERCURY™43-113

Heat

Medium Duty

Heat- and cut-resistant gloves, granting wearers complete hand and wrist protection

- Advanced protection: ActivArmr[®] 43-113 safety gloves feature Dupont[™] Kevlar[®] outer yarn and can intermittently handle dry hot objects up to 350°C/660°F, resisting radiant, convective and contact heat
- Specialized defenses: ActivArmr® 43-113 flameresistant gloves do not melt, drip or propagate flames as they self-extinguish, protecting hands, wrists and arms from serious skin injuries
- Advanced cut resistance: They also satisfy ANSI A5/EN ISO E cut resistance standards, making them an ideal choice for handling machinery and equipment
- Heightened comfort: ActivArmr[®] 43-113 protective gloves are cotton-lined, boosting their absorbency and dexterity
- Enhanced features: Their long knitwrist cuff also ensures greater forearm and wrist protection

Industries

• Machinery and Equipment

Applications

- Handling hot glass, bottles and panes
- Handling hot metal castings
- Rubber processing, vulcanizing and calendering
- Demoulding rubber tyres, belts and profiles
- Removing products from autoclaves

43-113 **Heat and Flame Resistant Glove**

Technologies

Previously known as: MERCURY™43-113

Kevlar

Key Features

- Dupont™ Kevlar® outer yarn: Tolerates dry handling up to 350°C/660°F
- Self-extinguishing design: For reliably flame-resistant work gloves
- ANSI A5/EN ISO E cut resistance certification: Superb hand protection

Performance Standards & Regulatory Compliance
