ACTIVARMR®
PERSONAL PROTECTIVE GEAR

# Electrical Insulating Gloves Class 1 - RIG114Y

**Durable, flexible electrical protection gloves, ensuring hand protection with fitted comfort**

**Previously known as: E005**

Electrical | Medium Duty

## Electrical protection gloves that deliver assured, comfortable protection*

- **Heightened durability and flexibility:** ActivArmr® Electrical Insulating Gloves Class 1 - RIG114Y are latex-made, via an environmentally friendly dipping process, for truly durable, flexible electrical PPE
- **Advanced ergonomics:** These insulated rubber gloves' non-splayed fingers and hand-at-rest design minimize hand fatigue
- **Elevated comfort:** A flared cuff means plentiful room for clothing and ventilation
- **Increased practicality:** Their smooth finish makes for easy donning and doffing
- **Specialized defenses:** They are arc flash certified (APC 2 in combination with 96-003 leather protectors), can withstand a touch voltage AC maximum of 7500 V (DC maximum 11250), while also protecting users against acid, ozone and very low temperatures*
- **Certified protection:** As electrical PPE, they also satisfy applicable CSA, NFPA and OSHA standards
*Category A, Z and C respectively

### Industries

- Automotive
- Electrical
- Construction
- Machinery and Equipment
- Mining

### Applications

- Applications with risk of touch voltage
- Electrical Contractors
- Hybrid engine manufacturing and repair
- Maintenance Repairs and Operations in all industrial environments (MRO)
- Mass Transit Repair and Maintenance
- Power maintenance, repair & transmission
- Telecom repair near electrical wires
