

02-100

Extreme resistance against a wide range of chemicals, including biological hazards

Previously known as: Barrier

Highly chemical-resistant gloves, ideal for use in spill response kits

- Specialized protection: AlphaTec[®] 02-100 laminated safety gloves have a five-layered design, protecting against a broad range of chemicals, meeting EN Type A chemical resistance standards and ensuring greater workplace safety
- Advanced defenses: Beyond chemical protection certification, they possess EN 374 viral protection capabilities
- Guaranteed quality: AlphaTec[®] 02-100 industrial gloves are also rigorously air-pressure tested and 100% inspected, ensuring exceptional quality, for truly reliable personal protection

Industries

- Life Sciences
- Metal fabrication
- Chemical

Applications

- Packaging and labelling
- Handling application & cleaning tools
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of proces equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Testing
- Charging and blending raw materials
- Unexpected leakages spills or other releases

02-100

Extreme resistance against a wide range of chemicals, including biological hazards

Previously known as: Barrier

Key Features

- Five-layer chemical barrier: EN374 Type A chemical protection ensured
- Antimicrobial defenses: Safety gloves with EN374 viral protection
- Air-pressure tested: PPE gloves subject to rigorous quality checks
