AlphaTec™

08-352

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-352

Neoprene work gloves featuring a rough finish, for superb grip in wet, slippery conditions

- **Advanced protection:** AlphaTec™ 08-352 chemical-resistant gloves are 100% liquid-proof, guarding against a wide range of hazardous chemicals, preventing burns and other potential workplace injuries
- **Heightened grip:** In addition, these medium-duty safety gloves possess a textured finish that allows wearers to confidently handle wet and slippery components, increasing efficiency
- **Elevated comfort:** Thanks to their soft, stretchy cotton liner, AlphaTec™ 08-352 protective gloves cushion the hand and absorb perspiration, preventing chafing
- **Increased flexibility:** Flexible work gloves by design, they grant increased dexterity and facilitate object handling, while ensuring convenient donning and doffing and reducing hand fatigue

Industries

- Automotive
- Automotive Aftermarket
- Energy
- Chemical

Applications

- Equipment repair & maintenance
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Transferring liquids and solids between vessels and tanks and process equipment
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process

AlphaTec™

08-352

Neoprene dipped coating on an interlock knit liner

Previously known as: ScorpioTM 08-352

Key Features

- **Neoprene coating:** For assured liquid and chemical protection
- **Rough finish:** Stronger grip performance, for optimized productivity
- **Interlock cotton knit liner:** For soft, flexible industrial gloves
