AlphaTec®
ADVANCED CHEMICAL PROTECTION

09-022

Resists a wide range of oils, acids, caustics and solvents

Previously known as: ScorpioTM 09-022

Robust neoprene gloves, granting excellent, all-round mechanical and chemical protection

- **Heightened protection:** AlphaTec® 09-022 heat and cold-resistant gloves feature a special Hi-Lo insulated gauntlet option with quilted cotton liner for use in both hot and cold conditions, allowing intermittent handling in hot liquids up to 180˚C and in cold temperatures down to -25˚C
- **Advanced ergonomics:** The anatomical shape of these heavy-duty, black chemical gloves is designed to follow hand contours, improving dexterity and alleviating hand fatigue
- **Improved features:** In addition, AlphaTec® 09-022 hand protection gloves offer excellent broad-spectrum chemical resistance, protecting against oils, acids, caustics, alcohols and solvents, while their cotton lining enhances snag and puncture resistance

**Caution: Do not use the 09-022 gloves in applications above 180°C (400°F)*

Industries

- Metal fabrication
- Chemical
- Automotive Aftermarket
- Machinery and Equipment

Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

AlphaTec®

ADVANCED CHEMICAL PROTECTION

09-022

Resists a wide range of oils, acids, caustics and solvents

Previously known as: ScorpioTM 09-022

Key Features

- **Special Hi-Lo insulated gauntlet option:** For hot and cold conditions
- **Anatomical shape:** For protective gloves with improved dexterity
- **Smooth finish:** Optimal defense against mechanical and chemical hazards
