

## Long-cuffed neoprene chemical-resistant gloves, offering advanced mechanical and chemical protection

- **Advanced protection:** AlphaTec® 09-430 industrial gloves' high-grade neoprene compound and smooth finish can withstand various mechanical and chemical hazards, including acids, oils, caustics, alcohols, and solvents
- **Elevated comfort:** These heavy-duty chemical-resistant gloves also feature a cotton jersey liner, which enhances wearer comfort while boosting protection against snags and punctures
- **Refined ergonomics:** AlphaTec® 09-430 hand protection gloves' anatomical design is shaped to the contours of the hand at rest, resulting in greater dexterity and lesser hand fatigue over time
- **Enhanced features:** These AlphaTec® gloves measure 800mm/31", ensuring more comprehensive personal protection that reaches the wearer's shoulder

### Industries

- Metal fabrication
- Chemical

### Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

Previously known as: Scorpio™ 09-430

### Key Features

- **High-grade neoprene with smooth finish:** Advanced chemical resistance
- **Cotton jersey liner:** For truly comfortable, abrasion-resistant gloves
- **Anatomical design:** Greater dexterity, lesser hand fatigue
