

## Chemical-resistant gloves with moisture-absorbent inner coating, for comfort and high performance

- **Optimized comfort:** Designed with dual-layer coating featuring AQUADRI™ Moisture Management Technology, AlphaTec® 58-335 chemical protection gloves significantly reduce perspiration, keeping hands dry for longer
- **Heightened durability:** Thanks to their high-performance nitrile compound, these durable work gloves are more resistant to snags, punctures and abrasion than rubber or neoprene gloves
- **Improved grip:** AlphaTec® 58-335 industrial gloves' reversed lozenge palm finish also delivers improved wet and dry grip
- **Enhanced features:** They are also FDA-approved food handling gloves and are designed with a foldable cuff gutter to prevent dripping onto the forearm (they feature a longer cuff than the AlphaTec® 58-330)
- **Certified antistatic properties:** In addition, they meet EN 1149 antistatic standards

### Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical

### Applications

- Assembly & inspection of components
- Oil, fluids and filter change
- Painting or cleaning tools or robots
- Plating, coating, sealing, painting
- Handling incoming goods
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process
