

88-392Mediumweight, unlined natural rubber glove

Previously known as: VersaTouch 88-392

Flexible medium-duty rubber gloves, suitable for various food processing applications

- Enhanced flexibility and durability:
 AlphaTec[®] 88-392 natural rubber gloves boast high levels of tensile strength and elasticity, helping them withstand snags, punctures and abrasion
- Improved dexterity: With 0.52mm/20 mil thickness, these rubber safety gloves combine flexibility and dexterity, making them particularly easy to use over a sustained period
- Reduced allergy risks: AlphaTec[®] 88-392 protective gloves are subject to a special chlorination treatment, lessening the threat of related allergy risks
- Added grip: Thanks to their fish scale pattern, they also provide stronger grip performance over dry or wet surfaces
- Food handling compliance: AlphaTec[®] 88-392 work gloves also satisfy relevant FDA food handling requirements, making them ideal food safety gloves

Industries

- Food Processing
- Janitorial / Sanitation
- Chemical
- Agriculture

Applications

- All food processing applications that have food contact
- Chemical Handling
- Fruit and Vegetable Processing
- Janitorial use

88-392 Mediumweight, unlined natural rubber glove

Previously known as: VersaTouch 88-392

Key Features

- Natural latex rubber: Tensile strength, elasticity and abrasion
- 0.52mm/20 mil thickness: Heightened dexterity and flexibility
- Chlorination treatment: For latex gloves resulting in fewer allergy
