

66-667 Coverall

NFPA 1990 (NFPA 1992) certified coverall is breathable, re-usable and chemical-splash-resistant.

Breathable and reusable coverall, granting chemical splash resistance

- **Specialized protection:** AlphaTec® Breathable Polyester Coverall 66-667 is designed with chemical splash fabric to provide unmatched protection against liquid chemical splashes, and has been tested against over 70 chemicals with high effectiveness*
- **Elevated comfort:** This chemical protective suit features a breathable membrane, which facilitates effective heat dispersion, lowering the risk of heat-related stress
- **Enhanced features:** This protective outer garment features adjustable straps with parachute-style buckles, heavy-duty zipper and hook-and-loop fastenings at the legs and cuffs, providing a comfortable fit
- **Cost-effective:** The durable laminated fabric system of the coverall is machine washable, ensuring longer use and cost-effectiveness

Industries
