

ENCORE® Perry Style 42™ PF

S U R G I C A L G L O V E S

Latex powder-free surgical gloves, ideally combining protection and tactile sensitivity

- **Balanced performance:** Thanks to their optimal thickness levels, ENCORE® Perry Style 42™ PF latex surgical gloves ideally combine the glove wearer's need for barrier protection and tactile sensitivity, offering better instrument 'feel' during surgery
- **Improved comfort:** The proprietary anatomic formers used in the design of these ENCORE® gloves ensure a comfortable fit and minimal hand fatigue with sustained use
- **Effortless donning and doffing:** These latex surgical gloves' internal surface has a special polymer coating, making them swift and easy to don
- **Chemo-tested:** They are also tested for use with chemotherapy drugs in accordance with ASTM D6978*

*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- Brief, low-risk examination procedures
- Sterile procedures in the O.R.
- Use as an outer glove when double gloving
- Sterile procedures outside of the O.R.

ENCORE® The Confidence to Perform

Dedicated to delivering optimized solutions engineered to provide a high degree of confidence to surgeons, O.R. nurses and surgical technicians seeking protection with a high level of dexterity, comfort and grip so they can perform at their best.

ENCORE[®] Perry Style 42[™] PF

SURGICAL GLOVES
