## Latex powder-free surgical gloves with a strong formulation, for everyday hand protection

- **Secure personal protection:** ENCORE<sup>®</sup> Sensi-Touch<sup>®</sup> PF surgical gloves are powder-free and feature a strong glove formulation, granting everyday protection you can depend on for general surgical procedures
- **Reliable comfort and fit:** These sterile surgical gloves have been designed using Ansell's proprietary anatomic formers to offer comfort and dexterous hand movement
- **Effortless donning:** Thanks to their polymer-coated internal finish, these dependable surgical gloves are both fast and easy to don
- **Reliable grip:** These latex surgical gloves also feature a smooth external surface, with a micro-textured finish, for secure instrument handling
- **Chemo-tested:** They have been tested for use with chemo-drugs, in accordance with ASTM D6978 requirements

**CAUTION:** Safe use of these gloves by latex-sensitized individuals has not been established – this product contains natural rubber latex, which may cause allergic reactions

### Recommended For

- Brief, low-risk examination procedures
- Sterile procedures in the O.R.
- Use as an outer glove when double gloving
- Sterile procedures outside of the O.R.

### ENCORE<sup>®</sup> The Confidence to Perform

Dedicated to delivering optimized solutions engineered to provide a high degree of confidence to surgeons, O.R. nurses and surgical technicians seeking protection with a high level of dexterity, comfort and grip so they can perform at their best.
