

11-605

Finger tip coated glove for light and delicate applications

Multi Purpose

Lightweight industrial gloves that blend dexterity and sensitivity for delicate handling

- **Heightened tactility:** HyFlex® 11-605 polyurethane gloves boast high tactile sensitivity, thanks to a number of characteristics, including finger-dipped polyurethane coating
- **Greater choice:** While these HyFlex® gloves are finger-dipped, enhancing their tactile sensitivity, near-identical HyFlex® 11-600 and 11-601 models are palm-dipped, for added protection
- **Augmented dexterity:** HyFlex® 11-605 safety gloves are also lightweight, flexible and dexterous, making them ideal for the precise handling of small, delicate components
- **Elevated comfort:** Designed with a knitwrist cuff, they ensure reduced hand fatigue and enhanced comfort
- **Improved durability:** The HyFlex® 11-605 model satisfies ANSI/EN abrasion resistance standards, for longer wear

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

Applications

- Assembly & inspection of components
- Assembling and mounting components
- Adjusting systems and screwing

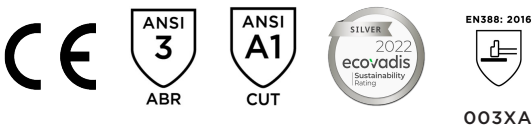

11-605

Finger tip coated glove for light and delicate applications

Key Features

- **Finger-dipped:** Maximum tactility for perfect precision handling
- **PU coating and nylon liner:** For added lightness and dexterity
- **Light color:** PPE gloves suited to less dirt-prone applications

Performance Standards & Regulatory Compliance
