HyFlex®

ADVANCED MECHANICAL PROTECTION

72-025

High level of cut resistance with superior comfort and flexibility

Previously known as: SafeKnit®72-025

Cut | Medium Duty

Lightweight, mechanical protection gloves delivering high performance

- **Advanced protection:** HyFlex® 72-025 safety gloves feature cut resistance that is comparable to stainless steel
- **Elevated comfort and increased flexibility:** In addition, these hand protection gloves provide both superior comfort as well as flexibility
- **Improved durability:** Offering long wear life, these abrasion-resistant gloves can be repeatedly laundered, even in bleach, without compromising their flexibility or protective properties
- **Food handling compliance:** As they comply with US FDA food handling requirement, they make good food safety gloves

Industries

- Automotive
- Machinery and Equipment
- Metal fabrication
- Food Processing

Applications

- Press injection molding
- Handling molded structural parts
- Seizing and finishing structural parts
- Loading and unloading rough parts or boxes
- Foundry operations
- Forging operations
- Press shop operations
- Applying finish to materials, products
- Poultry Processing
