

MICRO-TOUCH® DENTA-GLOVE® Blue Nitrile

Standard Thin

Nitrile, powder-free blue medical exam glove with ergonomic design for extra comfort

- **Reduced muscle strain:** Featuring proprietary ERGOFORM™ Ergonomic Design Technology, this non-sterile, blue nitrile medical exam glove helps reduce muscle effort that can cause stress on joints, ligaments and tendons
- **Comfortable fit:** Innovative film technology provides ultimate comfort and fit
- **High durability:** Their robust strength helps avoid rips and tears, and inner polymer coating facilitates ease of donning
- **Secure grip:** These gloves' textured finger surfaces provide a secure grip on instruments in wet or dry conditions — these gloves also provide great tactile sensitivity for fine, detailed procedures
- **Reduced allergy risk:** These nitrile gloves protect from latex Type I allergies
- **Suitable for patient contact:** Tested safe for oral examination, ensuring that the glove is safe for patient contact

Recommended For

- Enhanced tactile sensitivity and dexterity, especially for delicate procedures
- Extra comfort during long, sustained procedures
- Protection from Type I latex allergy in HCW's or patients
- Oral examinations
- Standard, moderate risk examination procedures

FEATURED TECHNOLOGIES

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
