

MICRO-TOUCH[®] DENTA-GLOVE[®] Latex HYDRACARE[™]

D E N T A - G L O V E [®] S e r i e s

Latex, powder-free examination glove with skin rehydrating effects

This non-sterile examination glove delivers the familiar latex properties of excellent fit, feel and dexterity. It features HYDRACARE Inner Coating Technology to help rehydrate your skin through its moisturizing effects.

KEY FEATURES AND BENEFITS:

- Inner polymer coating facilitates ease of donning
- Moisture retaining technology for healthier skin
- Textured surface provides a secure grip on instruments in wet or dry conditions.
- Tested Safe for Oral Examination, ensuring that the glove is safe for patient contact

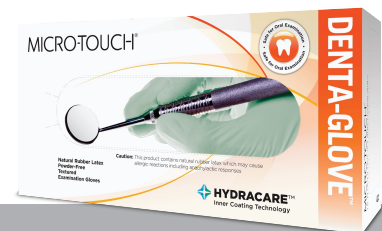

Caution: This product contains natural rubber latex which may cause allergic reactions including anaphylactic responses.

Recommended For

- Damp donning
- Oral examinations
- Standard, moderate risk examination procedures
- Helping protect skin from drying or cracking

FEATURED TECHNOLOGIES

HYDRACARE[™]
Inner Coating Technology

MICRO-TOUCH[®] Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
