

MICRO-TOUCH™ Nitrile Sterile Singles

Performance Series

Nitrile, sterile, powder-free medical exam glove featuring extended cuff, packed as single gloves

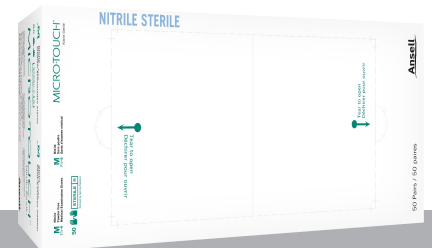

- **Barrier protection:** Packed as a single glove per pack, these sterile gloves are made from a synthetic, nitrile formulation that provides high elasticity with superior barrier protection and puncture resistance
- **Sterile:** With a minimum 25kGy to provide sterility, they are an ideal solution for a range of sterile medical exam (non-surgical) procedures
- **Extended protection:** The 11.6" extended cuff provides additional protection
- **Secure grip:** Textured fingers provide extra grip and reliability
- **Reduced allergy risk:** Protects from latex Type I allergy
- **Specialized protection:** Tested and approved for use with chemotherapy drugs*

*see product packaging for details

Recommended For

- Tested for use with chemotherapy drugs
- Sterile procedures outside of the O.R.
- Sustained, high-risk examination procedures
- Protection from Type I latex allergy in HCW's or patients
- Extra protection over the wrist and arm

FEATURED TECHNOLOGIES

MICRO-TOUCH™ Everyday, Everywhere Protection

MICRO-TOUCH™ premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
