

Durable extrication gloves, featuring a rugged grip system designed for search and rescue

- Specialized protection: RINGERS[®] R313 extrication gloves are developed with a patented TPR (thermoplastic rubber) design and F3 Technology[™], for an ideal balance of dexterity, comfort and impact protection
- Enhanced grip: With a special grip system around the palm and fingers, these safety gloves deliver strong, long-lasting grip
- Added defenses: Designed specifically for search and rescue operations, these RINGERS[®] gloves boast Kevlar[®] palm stitching, granting them moderate cut resistance
- Enhanced features: Thanks to their extended cuff with gaiter closure, debris is kept out, while increased visibility material with reflective markings further enhances wearer safety

Industries

- Mining
- Oil and gas

Applications

- Rescue extraction from confined spaces
- Operating of heavy machinery
- Crushing and unloading ore
- Shipping and loading of product
- Vehicle Maintenance
- Equipment maintenance Scaffolding Pipe handling and insulation Plumbing and sand blasting
