

MEDI-GRIP® Latex Powder-Free

SURGICAL GLOVES

Latex, powder-free surgical gloves with a micro-textured finish for secure instrument handling

- Enhanced grip: The unique external surface treatment and microtextured finish of MEDI-GRIP® Latex Powder-Free surgical gloves enables the glove wearer to securely grip medical instruments for safe handling under dry or damp conditions
- Elevated comfort: The unique anatomic formers and soft latex formulation of these powder-free sterile gloves ensure excellent fit and feel, offering prolonged comfort during long procedures and low risk examinations
- Excellent dexterity: Their soft, malleable formulation ensures dexterity to support easy manipulation of surgical instruments being used
- Chemo-tested: Tested to ASTM D6978, MEDI-GRIP® Latex Powder-Free gloves are safe to use with a wide range of chemotherapy drugs*

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

*Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

Recommended For

- Sterile procedures in the O.R.
- Extra comfort during long, sustained procedures
- Brief, low-risk examination procedures
- Use as an outer glove when double gloving
